

▶ Optical Components

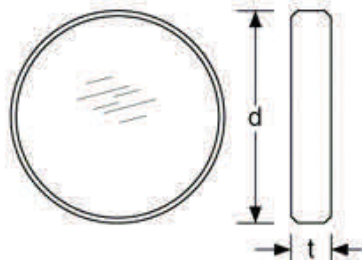

Filter

Blue Filter

Technical Specifications:

Index of Refraction n_d	1.51
Mount	M72 x 0.75mm
Coating	Both Surfaces, Single Layer MgF ₂
Optical Density OD	≥3.0
Surface Quality	80-50
Angle Sensitivity	Intended for Collimated Input
Operating Temperature (°C)	-50 to +75
Construction	Mounted in Black Anodized Ring
Typical Applications	Hg Emission/Ar Laser Line

(640-8003)

To Service the New
Product Development
Market in the Field of
Optics and Spectroscopy
with Dedication,
Integrity, and Excellence.
